Motorcoach Requirements:

- Motorcoach companies are required to carry a minimum of \$5,000,000 insurance. We maintain a copy of each company's insurance on file in our office.
- We request motorcoach models to be 1998 or newer when possible. We can request special accommodations such as wheelchair accessibility, VHS or DVD players, PA systems, card tables, etc.
- Extensive research is done to find motorcoaches that meet our clients' criteria.

We have three full-time staff members who are qualified to work on motorcoach travel.

Our staff will provide you with written motorcoach quotes based on your travel requests.

We can handle all of your travel needs, both in Louisiana and nationwide.

The State requires three (3) bids per transaction. We strive to provide four (4) or more bids when possible.

It is our goal to provide worry-free motorcoach travel to all our clients.
